

Mijung Lee b. 1988 Seoul

Summary -

Mijung Lee transforms her paintings into touchable objects by creating a sculptural sense on a canvas. As a painter, Lee produces images which are converted into three-dimensional objects, thus creating a flexible scene which can be interpreted in various situations in a physical space. Through her activities, Lee mainly focuses on expanding the meaning of each image and performing various roles that can be applied according to the situation.

Selected solo exhibitions include Art Delight (2018), Gallery KunstDoc (2014), OCI Museum (2013). Lee had a residency with the Kuandu Museum of Fine Arts in Taipei in 2017 and selected as OCI YOUNG CREATIVES in 2013. Her work is in the permanent collection of Kuandu Museum of Fine Arts, Taipei, Museum of Modern and Contemporary Art, Seoul, OCI Museum, Seoul, among other institutions.
